

Natural odour neutralizer

Area of Application

BIOFRESH is perfect for the neutralization of odours in rooms, on textile materials, sofas and waterproof surfaces. The pleasant fresh orange/citrus scent is suitable for use in retirement and care homes, shopping centres, offices, etc. BIOFRESH neutralizes odours directly at their source. Odours are not simply covered, but neutralized and a pleasant freshness is left in the room.

Application

Use BIOFRESH undiluted or add to cold, clear water up to 10 %. Apply BIOFRESH with a hand sprayer and allow product to act. If necessary, rinse. BIOFRESH is suitable for textiles (curtains, carpets, etc.) and waterproof surfaces. Shake before use.

Product characteristics

BIOFRESH the odour neutralizer with the 2 stage long-term effect guarantees the best room freshness!

- The first phase acts like a classic air freshener. BIOFRESH envelopes odour molecules in the air and on surfaces and provides immediate room freshness.
- The second phase neutralizes the sources of odour biologically. It removes the basis of nourishment for micro-organisms and therewith lastingly prevents the development of metabolites.

Note

BIOFRESH is not a classic room spray. Spray product only directly to the odour source. We recommend DUFTSPRAY Citrus or DUFTSPRAY Exotic Flair for use as a room spray. Store in a cool and dry place. After contact with product, wash hands thoroughly. Prevent contact with eyes, wounds and skin. Before use, test product compatibility with surfaces on an inconspicuous location. Product may cause allergic reactions. Do not bring into contact with other cleaning products. Do not inhale product.

Technical information

Carton of 12 x 1 l bottles

order No. 00272

Carton of 12 spray bottles of 600 ml (empty)

order No. 00887
