FOROL eco

Ecological universal cleaner

Area of application

For efficient cleaning of all water-resistant, coated and non-coated antistatic surfaces and floors. The low-foaming formula can be used by hand or machine and is suitable for up to 1% acrylic glass.

Application

Manual maintenance cleaning:

For normal soiling 0.25% (add 10 ml FOROL ECO to 4 litres of COLD water)

Spray cleaning: 0.25% – 0.50%

Mechanical cleaning: 0.5%

For heavier contamination in all processes: 0.5 – 1.0%

Spray cleaner process: 5%

The correct dosage reduces costs and helps the environment.

Product characteristics

- Awarded with the eco-label of the European Union (EU Ecolabel) and the Cradle to Cradle Gold certificate
- Proven reduction in CO₂ emissions by using FOROL ECO in recycled containers
- The synergistic combination of tensides ensures excellent surface wetting and dirt-dissolving properties, even on greasy and oily contamination
- Suitable for all standard cleaning processes thanks to low-foaming formula
- Economical, particularly the microfibres, thanks to dirt-removal properties
- Pleasant, natural fresh fragrance

Note

This product is intended for commercial use. Keep out of the reach of children. Do not mix with other detergents. Do not inhale spray mist. To save on plastic and further reduce CO₂ emissions, we recommend refilling the 1-litre container from the 10-litre canister using a tap.

Service

FOROL ECO helps to reduce CO₂ emissions. Our CO₂ calculator makes your savings potential transparent and offers additional carbon neutralisation.
