

Kristalin bio CONCENTRATED SANITARY CLEANER

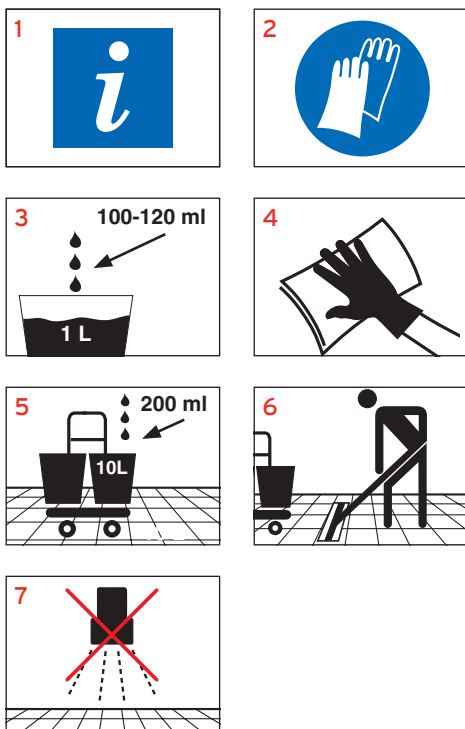

Kristalin bio has an advanced formulation that combines selected bacteria strain with traditional cleaning agents to eat away components found in urine and uric scale. The product eliminates the root cause of bad smell at source, degrading and removing organics from surfaces. The bacteria digest grease, oil, protein, fat and starch along with other organic waste. **Kristalin bio** removes the dirt from tile grouting, unglazed ceramics pores, marble or concrete pores, bathroom fixtures, between fibres, as well as from waste pipe drain systems in high traffic public washroom and toilets. A nightly squirt of **Kristalin bio** into floor drains and bathroom sinks eliminates blockages in drainage, keeping drains, traps and pipelines clear.

Application: For all water resistant floors and surfaces. Ideal for high traffic public washrooms and toilets.

- **Clean** - selected bacteria digest uric acid, grease, oil, protein, fat, starch and other solid organic waste materials, removing odours at source.
- **Safe** - Based on safe micro-organism technology
- **Efficient** - Kristalin bio reduces water and labour costs, allowing continuous action during and after application

USE INSTRUCTIONS

- 1 Check product label and hygiene plan for detailed use information.
- 2 Wear suitable protective clothing when handling cleaning products.

FOR SURFACE CLEANING

- 3 Add 100 - 120 ml of **Kristalin bio** per litre of water.
- 4 Wipe surface with a cloth or sponge. Rinse with water or wipe with a clean damp cloth. Use **Kristalin bio** in combination with red Polifix microfibre cloths to avoid cross-contamination.

FOR MANUAL FLOOR CLEANING

- 5 Dispense 2% in the bucket (200 ml per 10L)
- 6 Wipe the floor and allow drying. We recommend the product in combination with Ecolab rasanTEC® mopping system.
- 7 No rinse required.

SPECIAL NOTES/ INFORMATION For professional use only!

SAFETY INFORMATION

Do not mix with any other products!
Do not breath in aerosols!
Do not spray with high pressure sprayers or fine aerosols dispensers. Always read label and product information before use. For further information and safety instructions see product label and safety data sheet.

STORAGE CONDITIONS

Store between 5° and 45°C in original container only.
pH value (conc.): 7 to 9

PACK SIZE

6 x 1L
2 x 5L
