

# FORIL

## Deep sealing for bright artificial stone / terrazzo

### Area of application

- Perfectly suitable for bright artificial stone and terrazzo
- Ideal for use as a resoiling preventative after basic cleaning

### Application

- Before application of FORIL, thoroughly clean floor using an alkaline-containing product, then thoroughly rinse floor with water
- **IMPORTANT:** Floor surface must be neutral, dry and absorptive, no acid cleansers should be used
- Apply FORIL undiluted and evenly to floor surface in single or double thin layers. (FORIL can be applied with a pressure sprayer, then distributed with a mop or lambskin)
- Please note: Test absorbancy of floor surface on an inconspicuous location before first application
- Protect FORIL against freezing

### Product characteristics

- Deep sealing for bright artificial stone / terrazzo
- Reduces the adhesion of dirt, facilitates cleaning
- The natural appearance of stone is maintained
- Hard wearing, resistant to chemicals
- Quick drying
- FLOORTOP rapidly brings stone floors sealed with FORIL to a high gloss finish
- Free of water insoluble solvents
- Steam-permeable

### Note

FORIL is not a coating; the product must be absorbed by the stone, no liquids may remain in the splices!

- Not suitable for outdoor use!
- Do not use on highly polished floors!

### Technical information

Carton of 2 x 5 liter canisters      order No. 00535
