

ARENAS®-excellent

Liquid cleaning booster for textile cleaning

Features

ARENAS®-excellent is a phosphate-free cleaning booster designed to improve the washing performance in the main wash. Thanks to the combination of ARENAS®-wash and ARENAS®-excellent, even stubborn dirt will be removed from the textiles.

Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, inorganic salts, additives.

pH value (concentrate): approx. 14

pH value (ready-to-use solution):

depends on the detergent combination

Application

In combination with ARENAS®-wash, ARENAS®-excellent is suitable for washing all white and coloured laundry. Do not use with silk or wool. Please respect the maximum wash temperature of the individual textiles. In combination with ARENAS®-wash and ARENAS®-oxydes for the chemothermal disinfection of bleachable cleaning textiles.

Directions

The textiles are sorted by type and colour and washed in the main wash cycle with ARENAS®-wash according to the specified wash temperature. Connect the ARENAS®-excellent container to the pump connection for the cleaning booster. The product will be automatically diluted by the program control of the washing machine.

Dilution recommendation	Wool, silk, coloured laundry, white laundry, cleaning textiles	Coloured laundry, white laundry, cleaning textiles	White laundry, cleaning textiles, all bleachable textiles
	ARENAS®-wash	ARENAS®-excellent	ARENAS®-oxydes
Hardness grade 1 (< 1.5 mmol/l)	0.3%-0.5%	0.3%-0.5%	0,2-0.5% (2-5 ml / 1 litre of water)
Hardness grade 2 (1.5-2.5 mmol/l)	0.4%-0.6%	0.4%-0.6%	0,2-0.5% (2-5 ml / 1 litre of water)
Hardness grade 3 (> 2.5 mmol/l)	0.5%-0.8%	0.5%-0.8%	0,2-0.5% (2-5 ml / 1 litre of water)
