

# Carp-Deta

## Carpet stain remover

### Features

Quickly and efficiently removes water and solvent-soluble stains from textile floor coverings and upholstery fabrics.

### Ingredients (according to 648/2004/EC)

Anionic surfactants < 5%, water-soluble solvents, fragrances.  
pH value (concentrate): approx. 9.5

### Application

Suitable for all colourfast and moisture-resistant textile floor coverings and upholstery.

### Directions

Please test a small inconspicuous spot before first application to establish whether the material is colourfast.

### Stain removal:

Spray Carp-Deta on a cloth and treat the stain working from the outside in. Then dab away using an absorbent cloth or paper. For stubborn stains, use Carp-Deta with spray extraction method (hand adapter).

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product.
