

Tablefit

Plastic and desk cleaner

Features

Powerful spray cleaner with highly-soluble properties.
Effortlessly removes stubborn dirt from solvent-resistant surfaces.
For general routine cleaning with a spray, we recommend Profless Concentrate.
Tablefit has a pleasant fresh fragrance.

Ingredients (according to 648/2004/EC)

Anionic surfactants < 5%, water-soluble solvents, fragrances.
pH value (concentrate): approx. 9.5

Application

Removes pencil and indelible pencil marks, ink, felt pen marks and stubborn labels from solvent-resistant plastic or plastic-coated surfaces, stainless steel, aluminium, anodised aluminium, etc.

Not suitable for use on ABS plastic such as special telephone casings, some PC keyboards or LCD displays. ABS plastics are usually marked with "ABS". If this type of surface is accidentally exposed, please wipe off and dry immediately with a cloth. This will avoid damage to the material.

Caution! Solvent-sensitive varnishes and coatings (water-based) are damaged by Tablefit.

Directions

Please test a small inconspicuous spot before first application to establish whether the material is solvent-resistant.

Surface cleaning:

Spray Tablefit on a cloth. Wipe off the dirt from the surface and rub dry without leaving residues. Do not spray Tablefit directly on surface, always spray the cleaner on a cloth.

Refill spray bottle from 5 L canister with tap.

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product.

**Metal /
furniture care**

Coverage per square metre

Surface cleaning: 2 ml

No consumer product according to 1999/44/EC Art. 1! For professional use only!

Packaging
