

# SamoLind

Protects the highly stressed skin with vitamin E – perfume-free

## Product description

SAMOLIND is an instant absorbing, perfume- and silicone-free skin protection cream (oil-in-water emulsion, W/O). It is intended for use in working circumstances where the skin comes into contact with water-soluble working, skin irritating and harmful products. It is absorbed quickly without leaving a greasy film providing the skin with moisture with glycerine, and helps to protect the skin from drying out. In addition, SAMOLIND contains vitamin E which helps to soothe reddened and irritated skin, thus preventing skin diseases. SAMOLIND is especially suitable for use in the food processing industry and in the kitchen.

## Area of application

SAMOLIND skin protection skin is applied wherever perfume-free skin protection is required when in contact with moist work activities. It is especially suitable for use in kitchens, nursing and old people's homes, hospitals, industry, food retail trade, hotels, restaurants, etcetera. SAMOLIND protects the skin from direct contact with aqueous work materials, skin-irritating and harmful substances, such as water, alcohols, food, disinfectants, acids, alkaline solutions, salts, lime, cement, plaster and water-soluble cooling lubricants, rinsing and washing agents.
